

RACCORDS WECO

WECO COUPLINGS

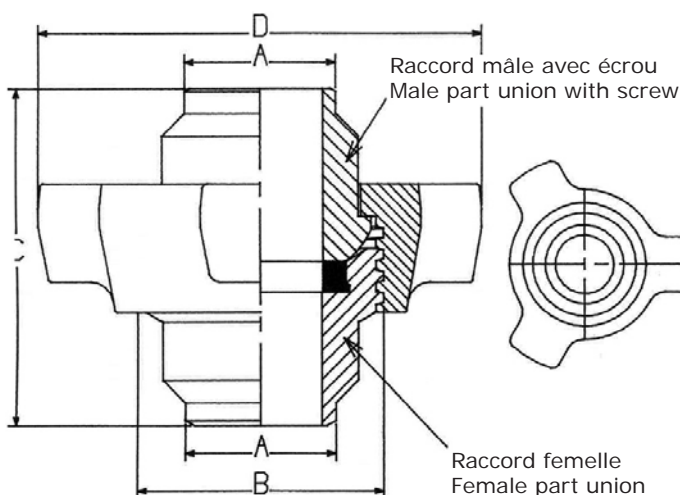

Série UNION à souder :

ATTENTION DANS CETTE SERIE, A LA DENOMINATION DES PIECES.

Le raccord mâle WECO est celui qui porte l'écrou, le raccord femelle WECO est celui qui a le filetage.

Egalement dans les bouchons :

Le bouchon mâle WECO est celui qui porte l'écrou, le bouchon femelle WECO est celui qui a le filetage.

Butt weld UNION Series :

PLEASE NOTE IN THESE SERIES.

The threaded part is designed :

Female part union

The other part is designed :

Male part union

The same thing for plugs.

Ces raccords sont filetés au pas ACME et réalisés en acier XC18S.

(Ils existent également au pas ISO)

Ils peuvent être, sous réserve de délai et de certaines quantités, réalisés :

- En acier basse température
- En inox

These unions are ACME threaded and made of steel.

(They can be ISO threaded)

They can be made of special steel for use at low temperature, or made of stainless steel.

REFERENCE NUMBER	DESIGNATION DESCRIPTION	A	B	C	D
602D2	Ensemble complet à souder 2" Male and female parts 2"	60	100	130	190
602D3	Ensemble complet à souder 3" Male and female parts 3"	90	135	160	220

Ces références correspondent aux raccords au pas ACME.

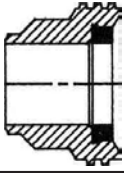

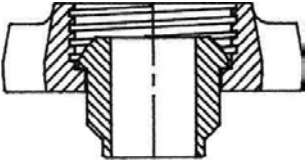

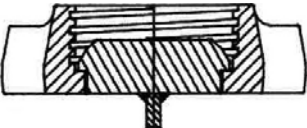

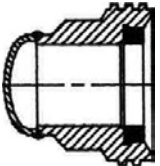

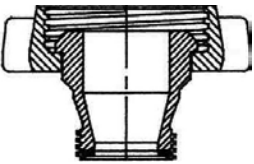

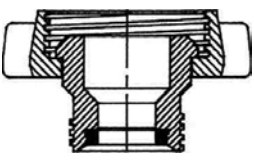

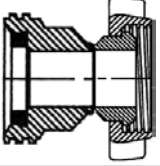

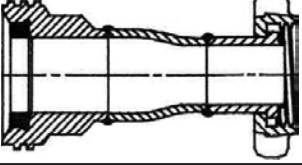

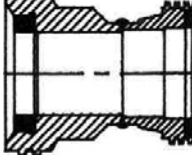

These parts numbers are for ACME Weco unions.

RACCORDS WECO

WECO UNIONS

Ces références correspondent aux raccords au pas ACME.

These parts numbers are for ACME Weco unions.

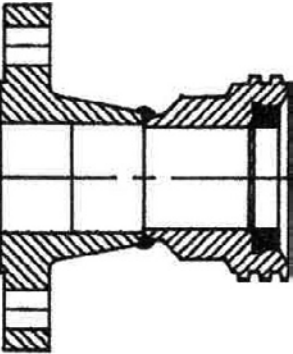

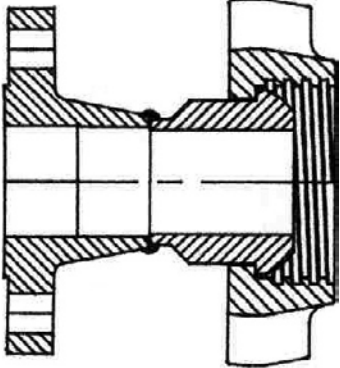

FIGURE	REFERENCE NUMBER	DESIGNATION DESCRIPTION
